Add a bank account

Important information about verifying your account:

For security reasons, we use test deposits as part of the external account verification process. 2 to 3 business days after you add a link to your Barclays account, we'll make two test deposits of less than \$1.00 into your external account.

We'll then ask you to log in to your Barclays account and report the amounts of those test deposits. After you have confirmed the test deposits amounts, you'll be able to begin transferring money between your Barclays account and your external account.

We will send you an email with the verification step after the test deposits are made.

4) Provide checking account details

Max Checking Users:

You can find your routing and account number on the Checking tab atop your Max Dashboard.

Max Checking is powered by LendingClub Bank.
